

ISCC – International Sustainability and Carbon Certification is one of the leading certification systems for sustainability, traceability and the reduction of greenhouse gas emissions. More than 3,500 companies in over 100 countries worldwide use the ISCC System. The ISCC certification ensures a sustainable production of biomass, the reduction of greenhouse gas emissions, no-deforestation and traceability throughout supply chains. ISCC is a multi-feedstock system and covers agricultural, forestry and alternative raw materials, such as waste and residues. The ISCC certification system ensures the sustainability of raw materials and products for various markets, including bioenergy, food, feed, and chemical/technical markets.
